Subject: Microsoft Settlement

As an 89-year-old senior citizen, I have found Microsoft's software to be generally user-friendly and helpful in my personal activities. It has disappointed me that Microsoft's competitors have attempted to stifle Microsoft's innovative efforts to improve their materials, thus putting a damper on their efforts to simplify and improve their offerings to the public. I hope that those in power will bring this dispute to a settlement in the near future. (At least while I can enjoy it!).

Thanking all concerned, I am: Milton T. Curry, 725 Gulf Coast Blvd., Venice, FL, 34292. Ph.: (941) 488-0195
